

CAREGIVERS AS ALLIES COHORT PROGRAM

Building Inclusive Experiences and Eliminating Bias at Home and in our Communities

Are you a caregiver committed to creating an inclusive, equitable, and bias-free environment for the Little Allies in your life? Our Caregivers as Allies Cohort Program offers the structure, support, and education necessary to foster these transformative values in your family and community.

In alignment with our mission, we will facilitate a series of interactive sessions for each cohort punctuated with specific action items for accountability and reinforcement. Caregivers who complete the program will be awarded a certificate of completion and become part of a supportive network of caregivers.
