

Little Allies

Train the Trainer

Get ready to inspire a generation! Our "Train the Trainer" program by Little Allies is your start to an exciting journey of creating powerful change-makers and future empathetic leaders. It's our unique approach to nurture the adults who can, in turn, guide our children towards a diverse, inclusive, and equitable world.

What's in it for you? Let's get started!

Laying a strong foundation: Imagine understanding the power of diversity, equity, and inclusion (DEI) at a young age. Through our program, you will learn how and why it's crucial to kick-start these conversations early.

Creating Little Champions: What's a "little ally," you ask? Dive into the heart of our program and discover practical strategies to help children understand and embody the principles of allyship. You'll be equipped to mould them into tomorrow's champions of diversity!

Power of Commitment: Let's get them involved! Learn how to inspire a sense of dedication in children towards DEI principles. These are lessons they'll carry throughout their lives.

Allyship Starts at Home: Who knew your home could be the breeding ground for positive change? We'll guide you to create a safe, diverse, and inclusive environment that inspires children to become allies.

Be the Change: You're their hero, their role model! Discover how your everyday actions shape a child's allyship journey. Get ready to be the change you want to see!

Set Goals: A little ally with a goal is a future leader in making! Our program will equip you to inspire children to set their own allyship goals, significantly increasing their chances of success.

The "Train the Trainer" program is a golden opportunity for you to actively participate in shaping a future that aligns with Little Allies mission of creating inclusive experiences and its vision of eliminating bias among children. We invite you to be a part of this rewarding journey by contributing to a brighter, more equitable future.
